Things can seem bleak when we see all the kinds of suffering going on in humanity, perhaps even among our own family members or neighbors. But sometimes these very circumstances spur individuals to find new ways to help and heal. One such example is Phillip Hockley, practitioner of Christian Science healing and international speaker. After sustaining a debilitating injury which was diagnosed as rendering him permanently disabled, Hockley began investigating ways to improve his situation. Along the course of his search, he attended a lecture on Christian Science.

‘During that lecture,’ he says, ‘I found something that was indeed life-transforming. Christian Science gave me a new view of God that I’d not had before: a view of God as Love itself, divine Love that loved me fully. I also discovered that this loving God was not the source of my troubles (which were many) but the solution to them. My life began to improve quickly and I became a healthy man.’

Sunday, June 9, 2019
